

March 19, 1971

Dear Helen,

Hope you and Walter arrived home safely and found winter had done no great damage at The Homestead. How ideal to enjoy living where you do all the best times of the year, and then can go to Florida and enjoy a well earned vacation in the sunshine and have each day nothing to do but enjoy it. Hope next time (and every time), you travel home by way of Detroit and give me a nice visit.

Winter is still with us, snow and strong winds this week.

Thanks for your cards.

It was good to hear from you and <sup>to know</sup> you were in Florida again.
